

## experience

### freelance presentation designer

SELF EMPLOYED

1.5 Years

Designing dynamic, creative and engaging powerpoint presentations for a range of clients, including IBM, KPMG, M&C Saatchi, Samsung, Commonwealth Bank of Australia and Westpac. Creating successful pitch documents using powerpoint and printed books for clients such as BP, Oakley, The National Lottery (UK) and the UK Electoral Commission.

### multimedia and presentation designer

PRESENTATION STUDIO

Permanent 4 years

Using storytelling to create beautiful powerpoint presentations, employing solid communication design ranging from detailed infographics to animation to help presenters influence their audiences. I've worked with some of the largest companies in Australia and some of the smallest - regardless of size its always about their message.

**Created industry leading iBooks with Apple certification.**

### photographer

PERSONAL PASSION

Travel & documentary, ceremonies & formal occasions and street shoots:

As an avid photographer I have photographed many events. I have experience using lighting, flash and natural light to capture images and important moments. My photo shoots have ranged from using macro, for the finest details, to telephoto lenses for long range subjects. I also have extensive post production and imaging skills across Adobe Photoshop, lightroom and indesign for photographic spread.

**2016 Travel Photography Winner: International Traveller Magazine**

## what I bring

Experience of working with clients, face to face and via telephone within different sectors, in industries with fast deadlines and pressure. Excellent relationship building abilities, great phone manner and all round communication skills.

Good level of IT literacy. Accuracy and consistency in all facets of day-to-day work. Able to work independently but also a great team member. Proactive and systematic approach with pretty sweet timekeeping skills.

## personal

A self-motivated and hard working individual with experience in many roles. Able to use own initiative and work as part of a team. Proven leadership skills, including managing and motivating other staff to achieve company objectives. An effective communicator at all levels within an organization with great problem solving & analytical skills. I've always enjoyed great relations with colleagues & clients and thrive off a team work minded crew. Collaboration and idea sharing is the way forward.

## interests

I love good design, things that solve problems, that look beyond the ordinary. I'm an avid photographer that likes to get anything in frame and try to bring out the beauty of it. I've a full blown addiction to travelling, only tempered by my addiction to my family who keep my feet on the ground. I love keeping fit (but can't recall how to keep it), and getting to live music and sporting events if and when possible. I love the beach and mountains and anything outdoors - fresh air and wide open spaces are the shizl.
